Driven MSc student in Actuarial Science & Data Analytics with a strong foundation in finance, mathematics, and programming. Passionate about problem-solving, I thrive in data analysis, risk modeling, and financial decision-making, dedicating myself fully to what I love—turning complex data into meaningful insights.

A natural leader, I have led teams in high-pressure environments, including the Bloomberg Global Trading Challenge. Proficient in Python (pandas, NumPy), R, SQL, and Excel (financial modeling). Multilingual (Uzbek, English, Russian) and highly adaptable, I am eager to apply my analytical skills in a professional setting and embrace opportunities that challenge me to grow and contribute meaningfully.
